## EURO HOME QUALITY FLOORING – THE STYLE OF YOUR HOME

The demands made on today's flooring are as diverse as the lifestyles and interior designs they support. While there are as many reasons for the rapidly increasing popularity of laminate flooring as there are styles, the end result is always the same: satisfying even the highest demands for comfort, functionality and beauty.

Nowhere is this more true than in the extensive EURO HOME line of high quality and exclusive laminate flooring. Whether in a plank, strip or tile look, precision aligned or randomly staggered, the inspired matte surfaces of EURO HOME laminate flooring with glistening wood pores are designed to exquisitely exceed all needs and expectations, no matter the style. Incorporating numerous technical advances, EURO HOME flooring is not merely attractive to the eye, but it also beautifully withstands all the pressures of everyday life.

Be inspired and delight in watching your visions – and style – come to life!

## Moisture protection

Swelling-resistant substrates and secure Clic connections ensure optimum protection against moisture.

## 1clic2go

Even in hard to reach places like corners, doors and under radiators, the ingenious "1clic-2go" system makes installing EURO HOME flooring easier and faster than ever before. The tongue & groove joint along the length of a panel is slid into position from above and fixed flush with the adjoining panel. The panels are then securely interlocked by the patented "1clic2go" beading latching into position with an audible click. Quick. Easy. Secure.

## Twin Clic

The Twin Clic system has been specifically designed to make the installation of your laminate flooring as easy and hassle-free as possible. With Twin Clic, the tongue and groove profile allows individual panels to be securely and quickly joined together in a snap – with minimal tooling and difficulty.

## Diamond Gloss

The exclusive Diamond Gloss effect, matched to a panel's décor and characterized by a brushed matte surface with a glistening pore finish, dynamically reflects light with each step you take. The gloss effect emphasizes the depth of the structure and faithfully replicates the character of natural wood. Experience a floor that is virtually indistinguishable from genuine wooden floorboards, but with the durability you expect from laminate.

## Endless Beauty

Endless Beauty is a new panel concept based on invisible joints at the panel's short edges and V-joints on its long sides which combine to create a seamless look and magically make any room appear larger.

## Authentic Embossed

- Living Pore** Swirled color-aligned format with glossy embossing in the pores creates a stunning effect against a matte structure background.
- Deep Brushed** Swirled format with the look and feel of a brushed oak floor – the deep matte wave effect under the pores delivers outstanding realism. Available exclusively on wide-format Endless Beauty panels (242 mm).
- Windsor Oak** A medium gloss highlighting swirling pores against a longitudinally textured background.
- Oak Ardeche** An authentic swirled oak format with both fine (closed) and bold (open) embossed pores against a textured background.

## ENDLESS DEPTH AND BEAUTY

Any closer to authentic and it would still be lumber. NATURE HORIZON lets you enjoy the elegant charm and natural comfort of oak planks – completely hassle-free. The matte, deep-brushed finish of the surface is beautifully set off by contrasting gloss in the pores to convey an atmosphere of calm and tranquillity. Wider format planks, seamless joints between the boards and a continuous décor pattern enhance the impression of natural space to make this flooring one of your home's most attractive features.

## Advantages
